

ALPINESTARS
2015 MOTOCROSS

'15

Guennady Moisseev of Russia. Akira Watanabe of Japan. Roger DeCoster of Belgium. In their quest to become World Champions, all three of these men crossed Europe during the 1970s, racing around the cliffs of Cingoli, up the ominous hills of Hawkstone Park and through the nasty, unforgiving sand of Oss, Holland. And they all did it with Alpinestars. And so did young Americans Bob Hannah, Ricky Johnson and Jeremy McGrath as they rode towards their destiny of becoming Supercross Champions. All of these men led the world and defined the sport as it is today with their skill, determination and creativity.

And so it is now, 2015, that the world's finest and most accomplished motocross racers career around the rugged Grand Prix tracks of the World Championships and fly through the night air in the massive, sold-out stadiums of America. Racers such as Jeffrey Herlings of Holland, Matt Moss of Australia, Akira Narita of Japan and Ryan Villopoto, Justin Barcia, Eli Tomac and Adam Cianciarulo of the United States thrill millions of fans all over the planet with their flair, verve and supernatural skills. Passion runs deep in motocross. It has to. It's the only way. For to be the very best requires total commitment and total dedication. All of these athletes firmly believe in these virtues. And so does Alpinestars. We are always thinking. Always refining. Always looking for a better way. We were there then. We're here right now. We'll always be there with One Goal. One Vision.

ONE GOAL. ONE VISION.

TECHSTAR JERSEY

MOTOCROSS / OFF-ROAD

376 1015 SIZES S-2XL

- Fade resistant sublimated graphics.
- Moisture-wicking polyester main fabric
- Mesh panels to increase airflow
- Pre-curved sleeves
- Elbow padding for improved comfort
- Fitted wrist cuffs
- Cut longer in back to help fit and compatibility with Alpinestars MX pants.
- Lower back grip printing to aid stability.

TECHSTAR PANTS

MOTOCROSS / OFF-ROAD

372 1015 SIZES 28-40

- Multi-panel poly-fabric construction with PU coating for additional strength and durability.
- Strategically die-cut perforated panels and mesh inserts for increase ventilation.
- Exclusive patented "VECTOR" back panel design provides maximum comfort and flexibility.
- Patented "BABEL" knee design features a pre-bent, reinforced and padded 3D knee construction with ballistic Nylon for added strength hidden spandex stretch expansion gusset.
- Rip-stop heavy nylon reinforcement on the seat area provides abrasion resistance.
- Genuine 1.3 mm leather reinforced inner leg panels for heat and abrasion resistance.
- Lightweight and ventilated mesh liner with stretch panel insert for improved fit.
- Inner pocket for key storage.
- Dual waist adjustment pull tabs.
- Vented TPR on knee and back to increase airflow

TECHSTAR GLOVE

MOTOCROSS / OFF-ROAD

356 1015 SIZES S-3XL

- Sonic welded TPR on finger with a split-finger construction
- Highly durable, vented Airmesh upper with 3D TPR moulded vent on back of hand for added air circulation.
- Glove constructed in a pre-curved shape with Airprene knuckle flex points to MAXIMIZE RIDING COMFORT.
- Finger fourchettes covered with seamless one-piece Lycra to avoid irritation.
- Landing zone reinforced with anti-vibration foam for absorption on and off the bike.
- Silicon grips on fingers for improved grip and lever control.
- TPR wrist adjustment for customized fit.
- Reinforced suede thumb area increases durability.

VENTURE JACKET for BNS **ENDURO**

370 3012 **SIZES S-3XL**

- Technical off-road and enduro performance riding jacket.
- Durable Nylon and Polyester fabric construction provides excellent abrasion resistance.
- Multiple stitched main seam construction for superior resistance against tearing.
- Pre-bent multi-panel sleeve construction affords an excellent fit in the riding position.
- Reinforced and 3D elbow construction with padded reinforcements for greater impact protection.
- Removable collar designed to accommodate the Bionic Neck Support and most neck brace systems on the market.
- Detachable sleeves allow the jacket to be worn as a vest.
- Front zippered air intakes and rear exhaust vents for highly effective climate control.
- 4 front pockets and 1 large pocket on the back.
- Convenient three-section front flap allows the jacket to be configured for greater airflow.
- Flip out pass holder.
- Internal hydration pack compartment on the back with integrated pipe hold system.
- D-ring waist Velcro adjustment and Velcro wrist closure ensure a snug, tailored fit.
- Neoprene borders on cuffs for added comfort.

BNS TECH CARBON NECK SUPPORT

735 gr.

650 0014 SIZES XS/M - L/XL

- The BNS Tech is constructed from an advanced, high-performance carbon polymer compound to offer:
- Structural integrity and frame strength against heavy impact energies during a crash.
- Ultra-lightweight performance and comfort while riding.
- Resilience to low temperatures, below 0°C.
- The BNS Tech is designed to provide a customizable, secure and personalized fit with:
- SAS (Size Adapter System) for a versatile fitment in size ranges XS-M and L-XL.
- Lycra-laminated foam padding kits: adaptable and interchangeable EVA foam pads allow compatibility with body protection systems.

- Strap System: Light strap worn over or under the jersey.
- The BNS Tech incorporates a bio-organic engineering design for superb ergonomics:
- Rear stabilizer promotes PFR (Progressive Force Relief) and dissipates energy loads by transmitting them across the back and shoulders and away from spine (thoracic vertebrae), and is connected to the frames via pivot key.
- Frame construction promotes improved contact with helmet during impact – including rear support edge that fits closer to the body, extra width to account for different helmet sizes and raised chest to reduce hyper-flexion.
- Innovative quick-release locking system for rapid and efficient fitting/removal offers secure and convenient closure.
- Compressed EVA foam compound padding to distribute the impact force over the widest area, yet remain lightweight.
- Category 2 CE certified under the PPE Directive (89/686/EEC).

FLUID TECH CARBON KNEE BRACE

LEFT 650 0414 / RIGHT 650 0314 SIZES S/M/L - XL/2XL

- EN 1621-1:2012 (K) / LEVEL 1
- The Fluid Tech is lightweight, strong and is constructed from an advanced, high-performance carbon polymer compound to offer:
- Optimized structural integrity and frame strength: the Fluid Tech features a lightweight 'exoskeleton', reduced material construction design.
- Highly ventilated: Channeled padding and mesh zones for optimized ventilation and airflow.
- Crucial weight-saving: the Fluid Tech is 40 per cent lighter than current B2 brace versions.
- Extreme temperature resilience: Fluid Tech performs at temperatures as low as -20°C (-4°F).
- The Fluid Tech is designed to provide a highly customizable, personalized and stable fit:
- SAS (size adapter system): provides adjustable and versatile brace fitment in size ranges S-M-L and XL-2XL.
- Innovative spacer system: Brace supplied with leg-size adjustment spacers (1mm, 2mm and 3mm) on either side of hinge, plus two pairs of flexible, anatomically optimized 'ergo-fit' spacers (6mm and 9mm) for improved directional articulation performance.
- Knee pivot system: New double-pivoting hinge system incorporating tool-free, fast, easily exchangeable extension stops (0, 5, 10, 15, 20 degrees) to prevent hyper-extension injuries.
- The Fluid Tech incorporates a bio-organic engineering design for superb anatomical performance:
- Innovative patella/knee cup protection system: Ergonomically sculptured and ventilated knee cup system constructed from semi-rigid TPU backed by shock-absorbing PU memory foam.
- Correct position of knee cup is secured accurately in place with top and bottom elastic straps, allowing multi-directional freedom of movement.
- Additional protection in strongly angled positions afforded by upper and lower patella cuffs.
- Innovative, dual X-strap system promotes secure fitment of brace in all riding positions and includes combined buckle and Velcro closures for rapid and easy mounting.

BIONIC SX KNEE PROTECTOR

650 6312 SIZES XS/S - M/L/XL

- EN 1621-1:2012 (K+L) / LEVEL 1
- Super lightweight knee guard that provides exceptional impact protection.
- Extensive protection zones fulfills CE standard
- Constructed with highly breathable materials in an efficient ventilation configuration for superior airflow.
- Asymmetrical, anatomic design and intelligent panel construction allows optimal movement and ensures a correct fit for both the left & right protector.
- Kneecup features large lateral extensions for maximum protection coverage.
- Complete TPU protector coverage over the knee, shin & lower thigh.
- Engineered to easily fit with riding boots, with a removable lower strap.
- Inner medial kneecup features a sleek design for reduced material thickness between the knee and bike for greater control while riding.
- Guard is backed with highly perforated, PU memory foam to keep you cool & comfortable. Slim, easy to adjust straps ensure a precise fit.

- Technical, elastane stretch mesh main construction is highly breathable and retains shape.
- Strategically positioned cordura panels for durability and abrasion resistance.
- All components engineered for a reduced material construction garment that is extremely lightweight, slim and highly ventilated.
- Highly versatile, modular and customizable fit for different forms of off-road riding is afforded by: removable comfort padding; v-strap kidney belt; lace sleeve closures; removable sleeves; full compatibility with bns protection.
- Innovative, CE certified chest protector backed by technical, eva shock absorbing material which molds to rider's body shape.
- Premium, CE certified shoulder and elbow/forearm protectors systems feature: thermoformed 3d poly padding for comfort and shock absorption; dual protector cup for excellent flexibility and range of movement; protector cups are asymmetric to offer extended protection surfaces, which are contoured to ensure a close fit to keep the protection located and reduce rotation.
- Detachable back protector can be removed to further enhance ventilation capabilities or adapted to accommodate bns.
- Protector panels are constructed from a robust k-resin® polymer performance blend for optimized flexibility and excellent weight saving properties. Shells are vented and channelled to improve airflow and prevent heat build-up.
- Innovative cross lacing system (CLS) for securing sleeves features elastic cord and breathable microfibers to give lightweight and highly customizable fit. CLS significantly reduces risk of arm pump.
- Convenient pull tab loops on shoulders for secure fitment of alpinestars bns.
- Elastic kidney with tpr belt system for customized, secure fit.
- Removable (eva) comfort padding on shoulders, chest and kidney area.
- Premium, auto-locking ykk zips for main frontal closure and on detachable sleeves and ensures security.
- Silicone printed logos throughout to help keep jersey in place.

A8 PROTECTION VEST

ENGINEERED FOR BNS

670 0012 SIZES S/M - M/2XL - 2XL/4XL

- prEN 1621-2:2012 / LEVEL 2
- EN 14021
- The combination of advanced design methods and high-tech materials ensures that Alpinestars A-8 Body Armour offers unrivalled levels of safety and performance to the dedicated Motocross and Enduro rider.
- This new, innovative armour system attains the highest level of protection in terms of CE standards, yet grants the rider exceptional freedom of movement.
- This highly-developed protector can be worn as an under-jersey without shoulder cups or as an over-jersey with shoulder cups and utilizes semi-rigid plastics to enable a superior fit against

the body. The A-8's design allows the protectors to follow the body's motion perfectly, ensuring the armour is always in the optimal position to provide protection when it's needed.

- The large, lateral protectors are unique for such an armour system and wrap around the body effortlessly, while a newly developed buckle system allows the fit to be precisely adjusted.
- Strategically placed intake and exhaust events combine with extensive perforated panels to enhance airflow, resulting in greater riding comfort.
- The A-8 has also been designed to integrate with the Alpinestars Bionic Neck Support to offer riders a complete, high performance protection system for the upper body.

- Lightweight upper combines full-grain leather with lightweight microfiber and impact and abrasion resistant TPU shell.
- Innovative, evolutionary TPU shin-plate construction for greater range of fitment features a reinforced Velcro closure for comfortable, highly customized closure.
- Shin zone incorporates TPU blade system engineered to prevent frontal hyperextension and provides greater flex control.
- Evolutionary design for lateral flex zone provides front and rear flexion support and helps prevents torsion.
- Medial-facing panel constructed from TPU with rubber insert for maximum grip contact with bike and improved heat and abrasion resistance.
- Contoured TPU calf protector plate offers impact resistance.
- Innovative TPU rear blade system protects heel and features a rear hyperextension guard.
- Extensive TPU protection on toes, foot, heel, ankle, calf and shin with extra hard compounds on the toe-box, heel and Achilles tendon.
- New closure system includes polymer buckles plus aluminium frame with innovative self-aligning, quick release closures for customized secure fitment.
- TPU lower shell is reinforced with metal shank and includes toe reinforcement for impact and abrasion resistance.
- All the buckles are replaceable.
- Soft microfiber gaiter helps seal out excessive water and dirt entry.
- Poly fabric lining with 3D open cell foam incorporates anti-sliding suede reinforcement on heel area.
- Exclusive dual compound sole is seamlessly integrated to the multi-density foot base structure with built-in support; the sole superior durability and grip.
- The Tech 10 boot is CE certified.

ANKLE BRACE SYSTEM

MOTOCROSS / OFF-ROAD

201 1015 SIZES 5-15 US / 38-51 EUR

- Upper constructed from a combination of full grain leather and innovative and light microfiber that is flexible and abrasion resistant.
- Alpinestars inner ankle sleeve is constructed from leather with 3D mesh panels and incorporates adjustable shock absorbing gel inserts on the ankles and a removable anatomic footbed for enhanced comfort, fit and protection on the ankle and lower leg.
- Alpinestars exclusive high grip, dual density rubber outsole includes footpeg area which is reinforced with hard polymer compound for durability and comfort. The outsole is fully replaceable.
- Reinforced lateral flex zone above outward facing ankle helps prevent torsion.
- Contoured shin plate injected with high modulus polymer for superior impact and abrasion resistance is perforated for ventilation.
- Contoured calf protector plate is injected with high modulus polymer for impact resistance.
- Extended, internal protection plates constructed from injected polymer to guard the ankle and lower foot as well as the toe box area.
- Advanced closure system features strong techno-polymer buckles for easy adjustability with a precise, secure and streamlined fit.
- Top and bottom reverse closure design provides superior impact security and improved fit.
- Low profile toe for improved control and sensitiveness in the shift area.
- Full length, sculpted rubber panel on the inner side of the boot gives superb grip against the bike and is insulated with aluminum foil for improved heat resistance.
- Instep and Achilles flex zones for superior comfort, control and support.
- Replaceable kick starter protection insert located on the right boot.
- Stamped steel sole and heel guard.
- Soft, polymer gaiter provides effective seal around the top of the boot, preventing excessive water and dirt entry.
- Breathable 3D tech mesh lining reduces heat buildup and improves comfort.
- Contoured tempered steel shank is over injected inside the mid sole assembly for rider safety and support.
- New buckle closure system includes polymer buckles plus aluminum frame with innovative self-aligning quick release closures.
- All buckles are replaceable.
- Full inner bootie is constructed with 3D breathable mesh plus synthetic material chassis for support, plus breathable textile lining on the ankle areas.
- Ankle features perforated soft comfort padding and incorporates adjustable shock absorbing gel inserts on the ankles. Gel inserts are replaceable.
- Dual compound, removable anatomic footbed features polymer forefoot plus EVA arch support and top textile lining for support and comfort.
- The TECH 8 RS Boot is CE certified.

FLUID KNEE BRACE
SIZE RANGE

SIZE	KNEE WIDTH
S - M - L	9.8 cm - 11.2 cm / 3.86" - 4.41"
XL - 2XL	11.2cm - 12.6cm / 4.41" - 4.96"

To aid correct fit it is recommended that a rider with a knee width of 11.2cm wear a size L. Depending on a rider's leg shape there may be some sizing overlap between L and XL. To ensure an optimized fit it is therefore recommended that a rider refer closely to the sizing chart and/or try on both size versions (S-M-L and XL-2XL) before purchasing.
