

**2016 TECHNICAL
AUTORACING**

SUPERTECH SUIT

AUTORACING / SIZE: 44-60

- Complies with FIA 8856-2000 homologation standard.
- Ultra-lightweight, moisture-wicking multi-layer aramidic fiber construction incorporates highly breathable mid-layer and panel inserts for performance and effective regulation of body temperature.
- Alpinestars innovative material technology gives ultra-lightweight comfort with exclusive elastic fabric for fit and flexibility.
- Alpinestars fully floating arm construction with stretchable knit fabric ensures minimal material resistance while driving.
- Formula 1 derived anatomical stretch panels in lower back and sides, crotch and knee zones providing greater flexibility and superior fit, both in and out the car.
- Form fitting suit with engineered torso shaping. Soft collar with knit fabric secure, comfortable closure
- Pre-shaped arm and leg patterning is ergonomically engineered for optimum fit in the driving position.
- Ribbed wrist and leg cuff closure.
- Alpinestars exclusive shoulder epaulette construction providing easy extraction system.
- Printed logos helps maintain suit's material integrity and reduce weight.
- Weight 265 gr/sqm.

KMX 5 SUIT / KMX 5 YOUTH

KART RACING / SIZE: 40-60 - YOUTH SIZE: 120-150

- Complies with the CIK FIA Level 2 new standard homologation.
- Technical three-layer construction (to meet new homologation standard).
- High performance nylon outer layer is engineered for superior durability and abrasion resistance.
- Mesh panels positioned on under arms, seat area, sides waist, bottom leg for optimized levels of ventilation.
- Comfortable poly toweling lining with poly-cotton layers for excellent moisture-wicking.
- Semi-floating (3/4) shoulder gusset construction provides improved freedom of movement.
- Stretch inserts around the lumbar area for enhanced flexibility while in and out of the kart.
- Knitted wrist and ankle cuffs provide a snug fit and help prevent unwanted movement of the suit.
- Alpinestars Formula 1 style shoulder epaulettes.
- Adjustable collar and waist belt allows a customized fit.
- Two flat pockets offer a convenient storage option for those times away from the driving seat.
- Astars zipper pullers.

TECH 1-KX SHOE

KART RACING / PRODUCED SIZES: 2.5-13 US (3, 4, 5.5, 6.5) - CORRESPONDING TO: 37-47 EUR (EXCLUD. 34.5, 35.5, 37.5, 38.5)

- Advanced hybrid construction consisting of synthetic advanced microfiber and mesh affording ultra-light weight, excellent breathability and superior feel.
- Mesh panels inserts in the tongue, heel and side of the shoe offer excellent ventilation.
- Exclusive Kevlar® speed lacing system, derived from Alpinestars MotoGP technology

ensures quick, precise and secure closure.

- Lateral forefoot supports offer improved foot stability and protection.
- Honeycomb poly frame design integrated with the A-star logo to enhance the lateral and medial protection without compromising breathability.
- Low profile ankle with single Velcro®

ankle strap closure for stability.

- Integrated breathable 3D mesh lining.
- Ultra-thin Formula 1 specification sole uses Alpinestars exclusive rubber compound for pedal sensitivity and grip, in both wet and dry conditions.
- Innovative Alpinestars foot counter features

multi-compound construction for maximum performance: an ergonomic, molded Polypropylene heel counter provides support and stability inside the shoe, while a flat forefoot with die-cut ribbing provides greater feel on the pedals.

- Insole enhances comfort while driving and walking.

WALKING COMFORT FIT

100 RUNNING SHOE

CASUAL / SPORT / PRODUCED SIZES: 6-14 US / CORRESPONDING TO: 38-48 EUR

- Constructed from a lightweight and breathable multi-mesh upper for airflow and incorporates a seamless microfiber chassis for durability and structural integrity.
- Innovative lacing system which includes a lace eyelet tuning system running around the ankle to the instep making a light chassis closure for precise and comfortable fit.
- Tongue and collar incorporate highly breathable micro-perforated textile for

additional cooling performance.

- Anti-slide Achilles' support collar, constructed from technical textile for comfort and breathability, helps keep foot in position while training/running.
- The toe-tip reinforcement gives more structure/stability and abrasion resistance.
- Advanced PU heel frame construction incorporates a PU carbon texture area to

give excellent structure and stability.

- The 100 Running Shoe features a unique, high strength sole construction offering durability, rigidity and protective performance.
- Alpinestars' exclusive vulcanized compound outer sole with dual density EVA foam for cushioning and repeated foot-fall shock absorption.
- Technical dual midsole construction

with EVA foam double layered padding for additional comfort cushioning.

- Internal heel counter layered under the upper for structural integrity and support.
- Anatomical footbed profiled with Lycra® top lining and different hardness EVA foams: soft in the forefoot and harder on the arch to offer support and comfort.
- Tongue and collar soft padding for comfort and fit.
