

2018 MOTOCROSS COLLECTION

Right from the very beginning, motocross – and the creativity and revolutions per minute nature of the sport – has inspired Alpinestars to ceaselessly use on-track research and development from its world class athletes to further emphasize and enhance its constantly evolving high performance products. In a sport measured in hundredths of a second, motocross racers are perennially looking for an edge, so too is Alpinestars, relentlessly investigating and testing new technologies to further enhance rider protection, durability and physical functionality.

55 years after the creation of the Alpinestars brand of ingenuity and creativity, the world's best racers such as Eli Tomac and Justin Barcia in Supercross, Jeffrey Herlings and Romain Febvre in MXGP and many Motocross National Champions such as Cody Cooper and Akira Narita all insist on going to the starting gate in Alpinestars technical riding apparel, footwear and protection.

“There is A LOT of expectation to win in what I do,” says AMA 450MX National Champion Eli Tomac. “And when you have that upon you there are expectations to always perform to a certain level – and we should perform to that level. Our expectation is to go out there and fight for as many wins as we can and to get championships. We are expected to perform and Alpinestars helps me perform.”

JEFFREY HERLINGS

TECHSTAR FACTORY JERSEY

376 1018 / SIZE: S-2XL

MOTOCROSS / OFF-ROAD

TECHSTAR

- › Extremely lightweight, vented poly-fabric main chassis construction for moisture-wicking and performance fit.
- › Perforated mesh inserts around collar for excellent breathability, especially when using Alpinestars BNS neck support.
- › Extended perforation inserts on side torso and forearms for excellent airflow and comfort.
- › Pre-curved sleeves for maximum comfort and performance.
- › Extended rear for compatibility with Alpinestars' MX pants.
- › Comfort neck collar and raglan construction for easy entry and exit.
- › Seamless collar and cuffs for weight-saving and durability.
- › Wrist cuffs feature stretch inserts for excellent fit and convenient in and out.
- › Sublimated fade-resistant graphics in exciting new colorways.

TECHSTAR FACTORY PANTS

372 1018 / SIZE: 28-40

MOTOCROSS / OFF-ROAD

TECHSTAR

- › Multi-panel, poly-fabric construction with PU coating for excellent strength and durability.
- › Innovative, strategically positioned four-way stretch panels for freedom of movement and riding fit.
- › Localized perforation zones allows for cooling airflow and comfort.
- › Exclusive 'Vector' back panel provides maximum comfort and flexibility when riding.
- › 'Babel' knee design features a pre-bent, reinforced and padded 3D knee construction with hidden stretch spandex expansion gusset for excellent fit in the riding position.
- › Heavy poly-fabric reinforcement on the seat area provides high levels of abrasion resistance.
- › Includes perforated foam hip pads for fit, comfort and breathability.
- › Lightweight and ventilated mesh lining with stretch panel insert for better fit in riding position.
- › Leather panels on the inner leg provide heat resistance, grip and comfort.
- › 3D injection molded rubber logos and details for additional durability.
- › Silicon webbing on inner waist helps keep garment in position.
- › Durable waist adjustment pull-tabs with hook and loop grip for personalized fit and safe closure.
- › Inner hip pocket for safe key/coin storage.

VENTURE JACKET FOR BNS

370 3012 / SIZE: S-3XL

ENDURO

- > Technical off-road and enduro performance riding jacket.
- > Durable Nylon and Polyester fabric construction provides excellent abrasion resistance.
- > Multiple stitched main seam construction for superior resistance against tearing.
- > Pre-bent multi-panel sleeve construction affords an excellent fit in the riding position.
- > Reinforced and 3D elbow construction with padded reinforcements for greater impact protection.
- > Removable collar designed to accommodate the Bionic Neck Support and most neck brace systems on the market.
- > Detachable sleeves allow the jacket to be worn as a vest.
- > Front zippered air intakes and rear exhaust vents for highly effective climate control.
- > 4 front pockets and 1 large pocket on the back.
- > Convenient three-section front flap allows the jacket to be configured for greater airflow.
- > Flip out pass holder.
- > Internal hydration pack compartment on the back with integrated pipe hold system.
- > D-ring waist hook and loop adjustment and hook and loop wrist closure ensure a snug, tailored fit.
- > Neoprene borders on cuffs for added comfort.

VENTURE PANTS

372 3012 / SIZE: 28-40

ENDURO

- > Durable Nylon and polyester fabric construction for excellent abrasion resistance.
- > Alpinestars patented 'Vector' design back panel provides maximum comfort and flexibility.
- > Pre-bent multi-panel leg construction for excellent fit in the riding position.
- > Reinforced and padded 3D knee construction with medial leather panel for improved heat resistance.
- > Heavy nylon

- reinforcements on the seat area for enhanced abrasion resistance.
- > Lightweight, ventilated mesh liner for superior riding comfort.
- > Ratchet buckle waist adjustment provides a tailored fit
- > Hidden front zipper.
- > Stretch ankle cuffs prevent excessive movement of the pant while riding.

SAM SUNDERLAND

MEGAWATT GLOVE

356 5018 / SIZE: S-3XL

MOTOCROSS / OFF-ROAD

- › Top hand constructed from perforated leather and stretch polyamide for optimum levels of comfort, durability and breathability.
- › Durable and hard-wearing synthetic suede on palm and thumb.
- › Reinforced thumb and palm for durability and comfort.
- › Alpinestars' unique polymer hard-knuckle protector for superior impact and abrasion resistance.
- › Suede reinforcements with foam padding

- on the palm provide abrasion resistance in key impact zones.
- › Thumb and palm reinforcement for a superior grip.
- › Pre-curved finger construction reduces rider fatigue and offers improved comfort.
- › Silicon printing on finger tips to improve grip against the bar.
- › Hook and loop grip cuff closure for easy glove entry and secure closure.
- › Available in international sizes S-3XL.

NEO GLOVE

356 5518 / SIZE: S-2XL

MOTOCROSS / OFF-ROAD

- › Suede synthetic leather palm construction for grip and comfort with rubberized finger tips.
- › Anatomical palm side-seam for precise fit and sensitivity.
- › Neoprene covers the back of the hand for

- great insulation in cold and damp conditions.
- › Elastic and hook and loop grip wrist closure for a comfortable and secure fit.
- › Sonic protection and logos to prevent thread puncture holes.

BNS TECH CARBON NECK SUPPORT

650 0014 / SIZE: XS-M / L-XL

ENDURO

735 GR.

- › The BNS Tech is constructed from an advanced, high-performance carbon polymer compound to offer:
- › Structural integrity and frame strength against heavy impact energies during a crash.
- › Ultra-lightweight performance and comfort while riding.
- › Resilience to low temperatures, below 0°C.
- › The BNS Tech is designed to provide a customizable, secure and personalized fit with:
- › SAS (Size Adapter System) for a versatile fitment in size ranges XS-M and L-XL.
- › Lycra®-laminated foam padding kits: adaptable and interchangeable EVA foam pads allow compatibility with body protection systems.
- › Strap System: Light strap worn over or under the jersey.
- › The BNS Tech incorporates a bio-organic engineering design for superb ergonomics:
- › Rear stabilizer promotes PFR (Progressive Force Relief) and dissipates energy loads by transmitting them across the back and shoulders and away from spine (thoracic vertebrae), and is connected to the frames via pivot key.
- › Frame construction promotes improved contact with helmet during impact - including rear support edge that fits closer to the body, extra width to account for different helmet sizes and raised chest to reduce hyper-flexion.
- › Innovative quick-release locking system for rapid and efficient fitting/removal offers secure and convenient closure.
- › Compressed EVA foam compound padding to distribute the impact force over the widest area, yet remain lightweight.
- › Category 2 CE certified under the PPE Directive (89/686/EEC).

FLUID TECH CARBON KNEE BRACE

CODE RIGHT 650 0316

CODE LEFT 650 0416

SIZE: S/L -XL/2XL

577 GR.

PROTECTION

- > EN 1621-1:2012 K type B / LEVEL 1
- > New strong and advanced high-performance carbon polymer compound PA12 LCF reinforced for higher breaking resistance.
- > New additional thin Ergo Fit spacer on the medial (bike) side to have the knee closer to the bike.
- > New graphics
- > New softer and comfortable strap system to avoid skin irritations.
- > New soft comfortable lateral knee padding to avoid pressure points.
- > The Fluid Tech is lightweight, strong and is constructed from an advanced, high-performance carbon polymer compound to offer:

- > Optimized structural integrity and frame strength
- > The Fluid Tech features a lightweight 'exoskeleton', reduced material construction design.
- > Highly ventilated: Channeled padding and mesh zones for optimized ventilation and airflow.
- > Crucial weight-saving: the Fluid Tech is 40 per cent lighter than current B2 brace versions.
- > Extreme temperature resilience: Fluid Tech performs at temperatures as low as -20°C (-4°F).
- > The Fluid Tech is designed to provide a highly customizable, personalized and stable fit:
- > SAS (size adapter system): provides

adjustable and versatile brace fitment in size ranges S-M-L and XL-2XL.

- > Innovative spacer system: Brace supplied with leg-size adjustment spacers (1mm, 2mm and 3mm) on either side of hinge, plus two pairs of flexible, anatomically optimized 'ergofit' spacers (6mm and 9mm) for improved directional articulation performance.
- > Knee pivot system: New double-pivoting hinge system incorporating tool-free, fast, easily exchangeable extension stops (0, 5, 10, 15, 20 degrees) to prevent hyper-extension injuries.
- > The Fluid Tech incorporates a bio-organic engineering design for superb anatomical performance:

- > Innovative patella/knee cup protection system: Ergonomically sculptured and ventilated knee cup system constructed from semi-rigid TPU backed by shock-absorbing PU memory foam.
- > Correct position of knee cup is secured accurately in place with top and bottom elastic straps, allowing multi-directional freedom of movement.
- > Additional protection in strongly angled positions afforded by upper and lower patella cuffs.
- > Innovative, dual X-strap system promotes secure fitment of brace in all riding positions and includes combined buckle and hook and loop closures for rapid and easy mounting.

SX-1 KNEE GUARD

650 6316 / SIZE: S-M / L-XL / 2XL

PROTECTION

- > CE certified knee brace to the latest EN 1621-1: 2012 K type A [level 1]
- > Extremely lightweight knee protection with large protective area for riders looking for most breathable and lightweight solutions on all riding styles.
- > Upper and lower frames are constructed from a high performance polymeric material blend for optimized levels of flexibility and strength as well as excellent weight saving properties.

- > Polymer protector plates are strategically perforated for maximum breathability and air ventilation.
- > The shell integrated dual pivot hinge gear system follows the natural movement of the knee and keeps guard well positioned at all movements.
- > Upper extended frame for increased thigh protection without compromising mobility.
- > Innovative patella construction features 'floating' protection cup

for continuous coverage and mobility regardless of leg position.

- > Patella cup constructed from energy absorbing viscoelastic PU foam knee cup that is CE certified to Type A.
- > Patella cup is backed by soft padding for adaptive fit and breathable air mesh for ventilation and comfort.
- > High Abrasion resistant fabric with an over injected TPU frame structure on outer central knee-cup area to improve

the impact performances.

- > Thermoformed foam backing for excellent comfort against the skin.
- > Frames are asymmetrical and feature a slim, ergonomic design for comfort and performance fit.
- > Hook and loop / TPR dual strap closure systems for easy in and out and a personalized, safe fit.
- > Straps feature airprene for optimized comfort and airflow.
- > Available in sizes: S/M - L/XL - 2XL

BLACK RED // 13

SEQUENCE ELBOW PROTECTOR

650 2518 / SIZE: S-M / L-XL / 2XL

PROTECTION

- › CE certified Level 1 elbow protector
- › All components are engineered to offer a highly reduced material construction for a garment that is extremely lightweight, slim and highly ventilated.
- › Technical elastane stretch mesh main construction is highly breathable and retains shape and structure, while keeping protection plates close to the body which is key to ensuring its highly effective crash performance.
- › Plate design incorporates innovative integrated grid structure which, during an impact, absorbs and dissipates the energy forces across its cellular structure.
- › Panel shells are constructed from an injected polymer performance blend for optimized flexibility and excellent weight saving properties. Panels incorporate strategically positioned viscoelastic cup insert to protect joint extremity and help promote improved fit.
- › Plates are ergonomically contoured to follow the natural curvature of the body and feature air channeling to improve airflow and prevent heat build-up.
- › Elbow protector shell features additional soft TPR section for additional coverage and to help keep in position.
- › All plates are mounted on PE padded panels which are highly perforated to offer fit and skin-touch comfort.
- › Dual strap hook and loop grip closure system offers secure fitment of protection while allowing for unrestricted freedom of movement. Straps include silicone pull tabs for convenient closing while wearing gloves.

650 6516 / SIZE: S - 2XL

PROTECTION

- › EN 1621-1:2012 / LEVEL 1
- › EN 1621-2:2014 / LEVEL 2
- › prEN 1621-3:2013 / LEVEL 2
- › Upgrading of the back protector CE level: CE certified against the EN 1621-2 : 2014 Level 2. Grid technology embedded on the back protector .
- › Upgrading of the chest protector CE level : CE certified against the prEN 1621-3 : 2013 Level 2 FULL CHEST Type A .Grid technology embedded on the chest protector.
- › Shoulder and elbow PU foams new softer formulation and channeling design for more flexibility. CE certified against the EN 1621-1 : 2012
- › Grid technology makes the product lighter and improves the breathability and air ventilation.

- › Soft touch BNS puller for an easy and safe engagement with the BNS.
- › New kidney belt system.
- › Highly versatile, modular and customizable fit for different forms of off-road riding is afforded by: removable BP, removable comfort padding; v-strap kidney belt; Cross Lacing Sleeve.
- › [CLS] closures; removable sleeves; full compatibility with BNS protection.
- › Innovative, CE certified chest protector backed by technical, eva shock absorbing material which molds to rider's body shape.
- › Premium, CE certified shoulder and elbow/forearm protectors systems feature: hermaformed 3d poly padding for comfort and shock absorption; dual protector cup for excellent flexibility and range of movement; protector cups are asymmetric to offer extended protection surfaces, which are contoured to ensure a close fit to keep the protection located and reduce rotation.
- › Detachable back protector can be removed to further enhance ventilation capabilities or adapted to accommodate BNS.
- › Protector panels are constructed from a polymer performance blend for optimized flexibility and excellent weight saving properties. Shells are vented and channeled to improve airflow and prevent heat build-up.
- › Innovative cross lacing system [CLS] for securing sleeves features elastic cord and breathable microfibers to give lightweight and highly

customizable fit. CLS significantly reduces risk of arm pump.

- › Technical, elastane stretch mesh main construction is highly breathable and retains shape.
- › Strategically positioned Cordura panels for durability and abrasion resistance.
- › All components engineered for a reduced material construction garment that is extremely lightweight, slim and highly ventilated.
- › Convenient pull tab loops on shoulders for secure fitment of Alpinestars BNS.
- › Removable comfort padding on shoulders, chest and kidney area.
- › Premium, auto-locking YKK zips for main frontal closure and on detachable sleeves ensures security.

A-10 FULL CHEST PROTECTOR

670 0517
SIZE: XS-S / M-L / XL-2XL

PROTECTION

- › Protector plates feature embedded grid technology under the shells which absorbs and dissipates impacts forces. Grid technology cell system enables greater flexibility and air ventilation while allowing for significantly reduced weight. Protector plates are CE certified:
- › Back protector is CE certified according with the EN 1621-2:2014 level 2.
- › Chest protector is CE certified according with the prEN 1621-3:2016 Level 2 full chest Type A.

- › Shoulder protectors are CE certified according with the EN 1621-1:2012 level 1 Type A.
- › Hard shells are constructed from a high performance polymeric material blend for optimized flexibility and excellent weight saving properties.
- › Shells feature perforation zones and air channelling for excellent breathability and ventilation.
- › Modular design to allow for addition of BNS neck support:
- › Removable upper back padded

panel for BNS compatibility.

- › Removable upper front panel for BNS compatibility.
- › Soft touch BNS puller for convenient and safe engagement of the BNS.
- › Modular design means protector can be worn in various configurations allowing rider to use in different riding situations.
- › Removable EVA padding on biceps with a locking system on the shoulder pad keeps protection in position.

- › Soft bio foam padded chassis for maximum comfort and personalised, close-to-the-body fit.
- › Side adjustable kidney belt allows for various fit sizes and ensures protection remains close the body at all times.
- › Features Alpinestars quick release attachment system for convenient in and out.
- › Comes in international sizes XS/S - M/L - XL/XXL

- › Comes in international sizes XS/S - M/L - XL/XXL

A-4 CHEST PROTECTOR

670 1517
SIZE: XS/S - M/L - XL/2XL

PROTECTION

- › Front and back hard shell guards constructed from a performance poly-material blend for optimized flexibility and excellent weight saving. Shells are Ce certified:
- › Front shell CE certified against EN 14021:2003 (stone shield)
- › Back protector CE certified according with the EN 1621-2:2014 level 1.
- › Shells are perforated for maximum breathability and cooling ventilation, perfect for those hot dusty track rides.
- › Adjustable kidney elastic strap incorporates thermoformed perforated rib protection panels for high levels of protection without compromising movement.
- › Kidney closure system has newly designed, quick and easy-to-use buckles. New guard closure means one size fits a broad range of rider body types.
- › Soft bio-foam padded chassis for optimized levels of comfort and close-to-the-body fit.
- › Modular design means A-4 is optimized for use with BNS neck braces:
- › Removable upper back padded panel for BNS neck support compatibility.
- › Soft touch BNS puller for easy and safe engagement of the BNS.
- › Removable and adjustable shoulder pads for size regulation with integrated BNS puller.
- › Additional thermoformed EVA tale extension for extended coverage to the coccyx area.
- › Comes in international sizes XS/S - M/L - XL/XXL

- › Adjustable kidney elastic strap closure system with newly designed, quick and easy-to-use buckle. New guard closure means one size fits a broad range of rider body types.
- › Innovative integrated Y-strap system for modular use of back protector with fast and convenient mounting.
- › Available in sizes: M/L - XL/2XL.

BLACK RED // 13

YOUTH BIONIC ACTION JACKET

654 6818
SIZE: S/M – L/XL

YOUTH PROTECTION

- › CE certified Level 1 shoulder and elbow protector
- › CE certified Level 1 back protector
- › CE certified Level 2 divided chest protector
- › New lightweight protection jacket with high adjustability and maximum breathability.
- › All components are engineered to offer a highly reduced material construction for a garment that is extremely lightweight, slim and highly ventilated.
- › Technical elastane stretch mesh main construction is highly breathable and retains shape and structure, while keeping plates close to the body.
- › Versatile and customizable fit with removable upper back and front panel for compatibility with Youth Neck Support (YNS).
- › Soft touch YNS puller for convenient and secure engagement of the YNS.
- › Plate design incorporates innovative integrated grid structure which, during an impact, absorbs and dissipates the energy forces across its cellular structure.
- › All panel shells (back, chest, elbows

and shoulder) are constructed from an injected polymer performance blend for optimized flexibility and excellent weight saving properties.

- › Plates are ergonomically contoured to follow the natural curvature of the body and feature air channelling to improve airflow and prevent heat build-up.
- › Back protector feature three articulated plates to allow for greater flexibility and adaptive back fit in all riding positions. Plates 'interlock' in the event of a crash to help reduce risk of injury to the spine area. Back protector is developed in two waist-to-shoulder dimensions in order to cover all the KIDS/YOUTH body sizes from 6-10 and from 10-14 years.
- › Thermoformed foam collar and shoulder for comfort and structure.
- › All plates are mounted on PE padded panels which are highly perforated to offer fit and skin-touch comfort.
- › Elastic kidney with TPR belt system for improved ergonomics and a customized, secure fit.
- › Premium auto-locking YKK zips for main front closure, plus zip garage for improved comfort.

YOUTH NECK SUPPORT

654 0118 / SIZE: OS

YOUTH PROTECTION

- › Designed and developed for a fit that is specific to a youth rider's anatomy.
- › Frame constructed from injected polymer compound that has been extensively impact tested at performance on a range of off-road surface and varying temperatures.
- › Frame has been ergonomically engineered to promote contact with the helmet during impact – including rear support edge that fits closer to the body and raised chest to avoid hyper-flexion injuries – thus providing a solid surface which instantly channels damaging, compressive impact energy away from the neck and on to the support.
- › Frame's anatomical profile promotes positive helmet contact in event of a crash while allowing rider freedom of movement.
- › Rear stabilizer system helps

keeps support in position and is also designed to channel extreme energy loads away from the spine by transmitting it across the shoulder and helping to avoid serious spinal injury.

- › Ultra-lightweight EVA foam on the support's underside for comfort and positioning and to distribute the impact force over the widest possible area.
- › A new closure system for convenient engagement of support and to facilitate quick removal in case of emergency.
- › The support is supplied with the easy-to-use strap system which allows use over or under the jersey to secure the device on the rider.
- › The Youth Neck Support can be easily integrated with the A-5S Youth Body Armour to ramp up a young rider's overall protective coverage.

**EASY INTEGRATION
WITH THE A-5S YOUTH
BODY ARMOUR**

SEQUENCE YOUTH NECK ROLL

674 1018 / SIZE: S/M–L/XL

YOUTH PROTECTION

- › New hybrid children's neck protection with extended tail for position stability.
- › Ergonomic designed and engineered shape to fit kids from 6-10 yrs. and from 10-14 yrs.
- › Double density core is made from a soft PU foam base embedding a hard layer EVA for energy dissipation.
- › Bottom and internal soft section (neck side) provides comfort for the

shoulders and neck, a hard section on the upper part to give stability and provides force distribution when the helmet impacts.

- › Easy to use soft strap closure on the front part.
- › Highly compatible with all other Alpinestars protectors and jackets.
- › External cover can be removed for washing by hook and loop grip opening on the rear.

2010014
SIZE: US 7-14 / EUR 40.5 - 49.5

MOTOCROSS / OFF-ROAD

- Lightweight upper combines full-grain leather with lightweight microfiber and impact and abrasion resistant TPU shell.
- Innovative, evolutionary TPU shin-plate construction for greater range of fitment features a reinforced hook and loop closure for comfortable, highly customized closure.
- Shin zone incorporates TPU blade system engineered to prevent frontal hyperextension and provides greater flex control.
- Evolutionary design for lateral flex zone provides front and rear flexion support and helps prevent torsion.
- Medial-facing panel constructed from

TPU with rubber insert for maximum grip contact with bike and improved heat and abrasion resistance.

- Contoured TPU calf protector plate offers impact resistance.
- Innovative TPU rear blade system protects heel and features a rear hyperextension guard.
- Extensive TPU protection on toes, foot, heel, ankle, calf and shin with extra hard compounds on the toe-box, heel and achilles tendon.
- New closure system includes polymer buckles plus aluminium frame with innovative self-aligning, quick release closures for customized secure fitment.

- TPU lower shell is reinforced with metal shank and includes toe reinforcement for impact and abrasion resistance.
- All the buckles are replaceable.
- Soft microfiber gaiter helps seal out excessive water and dirt entry.
- Poly fabric lining with 3D open cell foam incorporates anti-sliding suede reinforcement on heel area.
- Ankle brace system innovative biomechanical inner brace features torsion bars to control ankle and leg rotation, while allowing freedom of movement.
- Shock absorbing padding on the

heel and ankles plus an ultra thin and flexible forefoot area for increased sensitivity and control.

- Replaceable footpeg insert on sole is constructed from hard compound vulcanized rubber for durability and protection.
- Exclusive dual compound sole is seamlessly integrated to the multi-density foot base structure with built-in support; the sole superior durability and grip.
- Removable anatomic footbed.
- Tech 10 boot is CE certified to EN 13634:2010.

ANKLE BRACE SYSTEM

Innovative biomechanical inner brace features torsion bars to control ankle and leg rotation, while allowing freedom of movement.

Shock absorbing padding on the heel and ankles plus an ultra thin and flexible forefoot area for increased sensitivity and control.

Inner ankle brace features four pivot points to effectively control rotational and side forces while allowing freedom of precise movement.

Front and rear blade system protects from hyperextension while providing advanced flex control.

TECH 8 RS BOOT

201 1015
SIZE: US 5-15 / EUR 38-51

MOTOCROSS / OFF-ROAD

- Upper constructed from a combination of full grain leather and innovative and light microfiber that is flexible and abrasion resistant.
- Alpinestars inner ankle sleeve is constructed from leather with 3D mesh panels and incorporates adjustable shock absorbing gel inserts on the ankles and a removable anatomic footbed for enhanced comfort, fit and protection on the ankle and lower leg.
- Alpinestars exclusive high grip, dual density rubber outsole includes footpeg area which is reinforced with hard polymer compound for durability and comfort. The outsole is fully replaceable.
- Reinforced lateral flex zone above outward facing ankle helps prevent torsion.
- Contoured shin plate injected with high modulus polymer for superior

impact and abrasion resistance is perforated for ventilation.

- Contoured calf protector plate is injected with high modulus polymer for impact resistance.
- Extended, internal protection plates constructed from injected polymer to guard the ankle and lower foot as well as the toe box area.
- Advanced closure system features strong techno-polymer buckles for easy adjustability with a precise, secure and streamlined fit.
- Top and bottom reverse closure design provides superior impact security and improved fit.
- Low profile toe for improved control and sensitiveness in the shift area.
- Full length, sculpted rubber panel on the inner side of the boot gives superb grip against the bike and is insulated with

aluminum foil for improved heat resistance.

- Instep and Achilles flex zones for superior comfort, control and support.
- Replaceable kick starter protection insert located on the right boot.
- Stamped steel sole and heel guard.
- Soft, polymer gaiter provides effective seal around the top of the boot, preventing excessive water and dirt entry.
- Breathable 3D tech mesh lining reduces heat buildup and improves comfort.
- Contoured tempered steel shank is over injected inside the mid sole assembly for rider safety and support.
- New buckle closure system includes polymer buckles plus aluminum frame with innovative self-aligning quick release closures.

- All buckles are replaceable.
- Full inner bootie is constructed with 3D breathable mesh plus synthetic material chassis for support, plus breathable textile lining on the ankle areas.
- Ankle features perforated soft comfort padding and incorporates adjustable shock absorbing gel inserts on the ankles. Gel inserts are replaceable.
- Dual compound, removable anatomic footbed features polymer forefoot plus EVA arch support and top textile lining for support and comfort.
- Replaceable footpeg insert on sole is constructed from hard compound vulcanized rubber for durability and protection.
- Tech 8 RS boot is CE certified to EN 13634:2010.

- › Tech 7S is specifically designed and sized for junior and / or smaller framed riders.
- › PU-reinforced microfiber upper for flexibility, abrasion resistance, water-resistance and weight-saving. Material ensures consistent fit and is easy to maintain and clean.
- › Contoured shin plate is injected with high modulus TPU for excellent levels of impact and abrasion resistance.
- › Medial facing side incorporates TPU panel with specially designed sculpturing for maximum grip contact with bike and improved

- heat and abrasion resistance.
- › One-piece injected dual compound foot shell with co-injected hard toe protector and integrated steel shank. The shell is highly resistant to abrasion and impact, adds to the boot's overall durability and improves boot's streamlining.
- › Excellent flexion provided by low profile medial and lateral pivot system to offer movement and support.
- › Instep and Achilles accordion flex zones constructed for superior control and support.

- › Extended microfiber gaiter helps seal out excessive water and dirt entry.
- › Soft poly foam reinforcement on ankles and collar for long lasting comfort and shock absorption.
- › 3D mesh textile with open cell foam for improved air circulation and comfort.
- › Buckle closure system incorporates polymer and fiberglass buckle arms and high-impact aluminum bridge closures for durability and weight-saving. Buckle system features memory and a quick release/locking system with self-aligning design for

- easy, precise closure and improved riding performance and security. All buckles are easily replaceable.
- › Compound sole is seamlessly integrated into the base structure for superior durability, high performing rubber grip patterning, and feel. The sole is replaceable.
- › Removable anatomic footbed for comfort and support ensures even weight distribution.
- › The Tech 7s boot is CE certified to EN 13634:2010.

TECH 3S YOUTH BOOT

2014018
SIZE: US 2-8 YOUTH / EUR 34-42

YOUTH
MOTOCROSS / OFF-ROAD

- › Designed and developed for optimized comfort and fit for junior riders.
- › Upper constructed from innovative light in weight microfiber material for flexibility, durability and abrasion resistance.
- › Light microfiber front and rear stretch bellow inserts for comfort, flexibility and critical support in various riding positions.
- › External toe box is made of high-performance synthetic material for high abrasion.
- › Extended PU synthetic gaiter helps seal out excessive water and dirt entry.
- › Contoured TPU calf protector plate, TPU higher medial protector, TPU outer lateral ankle and TPU heel counter offer support and resistance to impacts.
- › Rear TPR gaiter patch applied on top of the TPU calf protector gives protection and comfort on rear flex area.
- › Injected TPU shin plate connected with the TPU medial protector panel; hook and loop grip upper closure, plus TPR flap for broad ranging calf fit adjustment and support.
- › The TPU higher medial protector is designed with technical texture for improved grip on the bike's chassis.
- › Bio-mechanical medial blade system allows front and rear flex giving support and protection to the ankle.
- › The ergonomic TPU triple buckle straps allow smooth front flex from the medial protector to the lateral side without compromising flex.
- › New closure system includes 3 polymer buckles with an innovative closure system. This closure includes a ratchet with micro memory and a quick release/lacking system with self-aligning design for easy, precise closure; the all buckles are replaceable.
- › Innovative one-piece TPU injected dual compound foot shell, reinforced by a metal shank inside a co-injected toe reinforcement.
- › Soft foam surrounds the ankles and collar offering comfort and shock absorbing performance.
- › Entire textile lining for more comfort.
- › Replaceable anatomical EVA footbed.
- › Specially adapted removable footbed to accommodate growth and extended longevity of product (only available in boots size: 2-3-4).
- › Exclusive high grip rubber compound outsole.
- › TECH 3s YOUTH BOOT boot is CE certified to EN 13634:2010.

KIDS
MOTOCROSS / OFF-ROAD

- › Designed specifically for junior riders.
- › Upper construction is made from innovative and light microfiber material that is flexible and abrasion resistant.
- › Light microfiber on front and rear bellow gives more comfort in the flex area.
- › Toe box is made of advanced synthetic material for high abrasion.
- › Extended PU synthetic gaiter helps seal out excessive water and dirt entry.
- › Reinforced PU synthetic material on

- calf, TPU higher medial protector, TPU outer lateral ankle and reinforced PU synthetic material offer support and resistance to impacts.
- › Injected TPU shin plate connected with the TPU medial protector panel; hook and loop grip upper closure, plus TPR flap for broad ranging calf fit adjustment and support.
- › The TPU higher medial protector is designed with technical texture for improved grip on the bike.
- › Bio-mechanical medial blade system allows front rear flex while giving

- support and protection to the ankle.
- › The ergonomic TPU triple buckle straps give smooth front flex from the medial protector to the lateral side without compromising flex.
- › New closure system includes 2 polymer buckles with an innovative closure system. This closure includes a ratchet with memory and a quick release/locking system with self-aligning design for easy, precise closure; the all buckles are replaceable.
- › Innovative one-piece TPU injected

- dual compound foot shell.
- › Soft foam surrounds the ankles and collar offering comfort and shock absorbing performance.
- › Replaceable anatomical EVA footbed.
- › Specially adapted removable footbed to accommodate growth and extended longevity of product.
- › Exclusive high grip rubber compound outsole.
- › TECH 3s KIDS BOOT boot is CE certified to EN 13634:2010.

TECH 7 ENDURO BOOT

2012114
SIZE: US 5 - 16 / EUR 38 - 52

MOTOCROSS / OFF-ROAD

- Upper constructed from light, innovative microfiber that is flexible and abrasion resistant. Innovative, evolutionary TPU shin-plate construction for greater range of fitment features a reinforced hook and loop closure for comfortable, highly customized closure
- Shin zone incorporates a TPU blade system engineered to prevent frontal hyperextension and offer greater flex control.
- Specifically designed sole provides Enduro riders superior durability, grip, feel and a high level of structural rigidity.

- Wide entry aperture for convenience with hook and loop upper closure TPR flap to allow broad ranging calf fit adjustment and support.
- Medial-facing area constructed from one-piece TPU panel with honeycomb sculpturing for maximum grip contact with bike and improved heat and abrasion resistance.
- Top rear flexion of the boot is supported around the calf by an innovative TPU sliding blade system which dissipates the friction
- Ergonomic buckle system offers secure and highly personalised closure.

- Innovative TPU lateral ankle protection provides biomechanical link between the middle lateral and the bottom lateral of the boot. Instep and Achilles accordion flex zones constructed for superior control and support.
- TPU lower shell is reinforced with metal shank and includes toe reinforcement for impact and abrasion resistance.
- Extended microfiber gaiter helps seal out excessive water and dirt entry.
- New closure system includes polymer buckles plus aluminum frame with innovative self-aligning, quick release closures

- for customized secure fitment.
- All buckles are easily replaceable.
- Breathable mesh 3D liner with anti-sliding microfiber suede reinforcement on the heel area.
- Soft poly-foam surrounds the ankles and collar offer comfort and shock absorbing performance.
- Removable anatomic footbed.
- Exclusive high grip rubber double density compound outer sole.
- Sole and footpeg are replaceable.
- Tech 7 Enduro boot is CE certified to EN 13634:2010.

FLUID KNEE BRACE
SIZE RANGE

SIZE	KNEE WIDTH
S - M - L	9.8 CM - 11.2 CM / 3.86" - 4.41"
XL - 2XL	11.2CM - 12.6CM / 4.41" - 4.96"

TO AID CORRECT FIT IT IS RECOMMENDED THAT A RIDER WITH A KNEE WIDTH OF 11.2CM WEAR A SIZE L. DEPENDING ON A RIDER'S LEG SHAPE THERE MAY BE SOME SIZING OVERLAP BETWEEN L AND XL. TO ENSURE AN OPTIMIZED FIT IT IS THEREFORE RECOMMENDED THAT A RIDER REFER CLOSELY TO THE SIZING CHART AND/OR TRY ON BOTH SIZE VERSIONS (S-M-L AND XL-2XL) BEFORE PURCHASING.
